

I Multi-Purpose Clamps & Tools

PREFORMED BAND CLAMPS

ULTRA-LOK® CLAMPS

Ultra-Lok Clamps are manufactured from 201 Stainless Steel. The buckle is thicker and stronger than standard band clamps for superior holding strength. The powerful Ultra-Lok Tool is portable which enables the operator to bring the tool to the hose, instead of the hose to the tool, for much easier assembly.

JR®-TYPE PREFORMED CLAMPS

Jr®-type preformed clamps are available in both galvanized carbon steel and 201 stainless steel. All buckles are stainless steel.

Jr clamps are designed for use with high production air tools, or the C001 Banding Tool (Page 50).

PUNCH-TYPE PREFORMED CLAMPS

Punch type preformed clamps are available in galvanized carbon steel and 201 stainless steel. All buckles are stainless steel.

Punch clamps are designed for use with the punch style tool (Page 50) for the ultimate in field serviceability.

BANDING AND BUCKLES

Banding is cartoned in 100 foot rolls and available in 201 stainless steel. Buckles, sold separately, are 201 stainless steel. Banding features specially rolled edges to reduce the possibility of injury. Use the C001 Banding Tool (Page 50) to install.

WORM GEAR CLAMPS

Worm gear clamps are available in standard 1/2" band, miniature 5/16" band and quick release 1/2" band. All are manufactured with stainless steel band and stainless steel housing, with your choice of a carbon steel or stainless steel screw.

T-BOLT CLAMPS

T-Bolt clamps provide 360 degrees of sealing surface, and are particularly useful for high torque applications.

BAND TOOL ADAPTER

part number	description	list each
J001	Jr adapter	POR
J050	heavy duty adapter	POR
